# GUIDE TO LIBRARY SERVICES

## DO YOU NEED A BOOK OR A JOURNAL ARTICLE?

In our catalogue, Minerva, you will find paper and electronic resources for your study and research: books, journals, articles and databases, plus videos, music, pictures and maps. You can search by title, author or keywords, request book loans and access ebooks and ejournals.

### JOURNALS AND ARTICLES

In Minerva, you can look up paper-based journals, ejournals and electronic articles, or browse journals in the Digital Library by subject. Log in using your University credentials to access our electronic articles, even from home.

### BOOKS

In Minerva, you will find both **paper books** and **ebooks**. Log in using your **University credentials** to access our ebooks or request book loans, even from home. You can choose the library where you want to pick up and return books. Bring your University badge with you to use our self-service terminals.

## COULDN'T FIND WHAT YOU WERE LOOKING FOR?

Use the **interlibrary services** to request books, book chapters or articles from other Italian and international libraries; submit your request through Minerva or contact your library.

Minerva  
services

Log in using your University e-mail credentials to:

➤ access the full text and browse the electronic resources of the Digital Library

➤ borrow and renew items, access your account and save your searches

Looking for exam books?  
You can find them in Minerva

Minerva

## LOOKING FOR A PLACE TO STUDY, CONSULT A BOOK OR A JOURNAL?

In the reading rooms of the libraries you can study, consult books and journals and have free access to the volumes on open shelves. Some libraries offer **group study rooms**. If you have your own books to read, you can also use the study rooms on campus.

To access reading rooms, you have to reserve your seat in advance, by selecting your chosen day and time in the app "**lezioniUnimi**", or on the portal of the University Library Service. You do not need to reserve a seat if you go to the library to borrow or return items.

The **Eduroam wi-fi network** is available in all of our libraries. You can log in using your University e-mail credentials.

## NEED ANY HELP?

Just ask the library staff. You can meet us directly at the library or get online support via our service **BiblioHELP**. To receive one-to-one search assistance, book an appointment at the library of your degree programme.

Sign up for our **free training sessions** on how to **use all the resources at your disposal**, including e-resources in the Digital Library. You can check dates and times of these sessions on the portal of the University Library Service, where you will also find training materials.

Take our **online course BiblioDOC** to learn how to find resources and assess information for your reports or the final thesis.

## DO YOU NEED TO MAKE PHOTOCOPIES OR PRINT OUT MATERIALS?

In all the libraries you **can photocopy books and journals** or **print out documents and notes**, within the limits of copyright law and in compliance with the terms and conditions of use of electronic resources.

Interested in working  
at a library during your  
studies?
